Muhammad Adeel Iqbal

WordPress Performance & WooCommerce Specialist

(Speed | Conversions | Bug Fixing | Custom Development)

Profile

I transform slow, underperforming WordPress websites into fast, high converting platforms, specializing in WooCommerce optimization, custom plugin development, and performance engineering.

3+ Years Experience | 50+ Projects Delivered | Load Time Reduced: 6s → Under 2s

Work Experience

WordPress Developer (Remote)

Rozi Academy

Dec 2024 – April 2026

- Reduced website load time from 6s → under 2s, improving Core Web Vitals and SEO rankings
- Built a custom WordPress booking plugin with tiered pricing, admin approvals, and automated email notifications
- Delivered 15+ WordPress websites across tourism, education, and e-commerce using Elementor Pro
- Resolved critical plugin conflicts and WooCommerce bugs, restoring stability across client websites

WordPress Developer (Remote)

Nuovo Studios

Apr 2023 – Dec 2024

- Converted 20+ Figma and PSD designs into pixel-perfect, mobile-responsive WordPress websites
- Optimized WooCommerce checkout flow and store architecture for multiple e-commerce clients
- Executed website migrations with zero data loss — database transfers, domain, SSL, and post-launch testing
- Maintained live production websites across multiple industries with consistent uptime and on-time launches

WordPress Developer

Government Contract Embassy of Pakistan — Muscat, Oman

Apr 2024 – Jul 2024

- Developed the official Embassy of Pakistan website using Elementor and Advanced Custom Fields (ACF), delivering a secure and professionally structured government platform
- Built a custom passport application tracking system using WordPress Custom Post Types (CPT) and PHP, enabling citizens to check real-time application status online and reducing manual staff workload

WordPress Developer

Contract ESNCO Lighting Trading, Dubai, UAE

Oct 2023 – Mar 2024

- Managed WooCommerce store for a Dubai-based lighting company, handling products, orders, and content updates
- Performed website migration, backups, and troubleshooting to maintain consistent uptime
